

Public Facilities Authority ● Pollution Control Agency

**Public Notice - Clean Water Revolving Fund  
Draft 2025 Intended Use Plan and Project Priority List  
(Includes Federal IJA Funds)**

Date: October 18, 2024

To: Local Governments with Clean Water Projects on the 2025 Project Priority List  
Other Interested Parties

The [draft Fiscal Year \(FY\) 2025 Intended Use Plan \(IUP\) and Project Priority List \(PPL\)](#) for the Clean Water Revolving Fund (CWRF) are now available for public comment.

The IUP, prepared by the Public Facilities Authority, identifies the projects and activities eligible to apply for and receive funds from the CWRF in state fiscal year 2025 (July 1, 2024 to June 30, 2025). Projects must be ranked on the PPL, have an approved wastewater facilities plan or stormwater project plan, and be listed in fundable range on the IUP to be eligible to apply for CWRF loans in FY 2025.

Due to the lack of a 2024 bonding bill with state match for future federal funds beyond this fiscal year, the fundable range in the 2025 IUP is limited to carryover projects approved in prior state fiscal years. No new project requests are in the fundable range on the 2025 IUP.

The PPL, prepared by the Minnesota Pollution Control Agency (MPCA), identifies wastewater and stormwater projects that are potentially eligible to receive financing through the CWRF within the next five years. Projects on the PPL are listed in priority order based on a priority system established in MPCA rules. The PPL is included as an appendix to the IUP.

Contact Mary Jane Schultz with any questions regarding the draft 2025 IUP and contact Pam Foster with any questions regarding the draft 2025 PPL.

**Persons wishing to comment on the draft 2025 IUP or PPL should submit comments by e-mail by November 18, 2024.**
